Circular Economy in Cities

How can we embed circular economy principles to build thriving, liveable, and resilient cities?

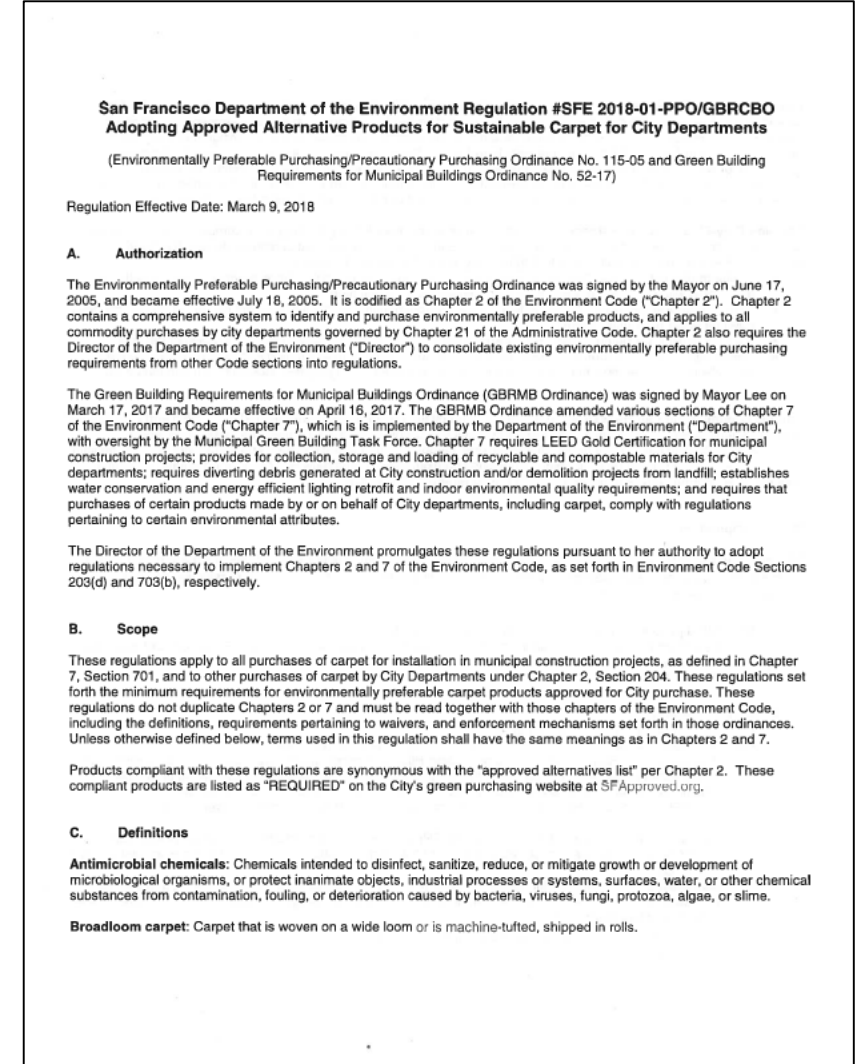

[Overview](#)[Vision](#)[Factsheets](#)[Policy levers](#)[Case studies](#)[Other networks & resources](#)

[Our work](#) > [Activities](#) > [Circular Economy in Cities](#)

Circular Economy in Cities is a suite of online resources which provide a reference point for urban policymakers.

As major engines for economic growth, cities can drive the circular economy agenda forward to unlock economic, environmental, and social benefits. Alongside *Sustainable Development Goals* and climate objectives, the transition to a circular economy will support city leaders as they deliver against their priorities, which include housing, mobility, and economic development.
